

DOMINATE

HIGH OCTANE EMULSIFIER

Description: **DOMINATE** is a complex, water-based formulation designed to effectively perform as a *heavy duty cleaner degreaser*. Dominate is formulated with a chemical-penetrating emulsifier that *dissolves, suspends, and floats away dirt, oil, grease, carbon, rubber marks, soot, and many other tough soils* that do not respond to most water based products, or to normally flammable solvent products. However, it is still *gentle on the hands*. **DOMINATE'S** formula is extremely powerful, nontoxic, biodegradable and is safe on metal as well as any surface not affected by water. The powerful ingredients in this product are *designed to mix with water*. Dominate is economical and provides safe, fast cleaning action that leaves no oily film. Just spray it on, and wipe or hose off for a clean bright surface.

Directions: DOMINATE can be applied by paint sprayer, mop, soak tank, or automatic scrubber
EXTRA HEAVY- DUTY - Dilute equal parts with water. Rinse.
HEAVY- DUTY—————Dilute 1 part DOMINATE with 5 to 9 parts of water. Rinse.
MEDIUM-DUTY—————Dilute 1 part DOMINATE with 10 to 12 parts of water. Rinse.
LIGHT-DUTY—————Dilute 1 part DOMINATE with 50 parts of water. Rinse.
DOMINATE may be used in high-pressure washers (HOT or COLD) or in a steam cleaner. May be diluted up to 50 to 1 in these applications.

Benefits - Features: CAN BE USED WITH CONFIDENCE • PAINT CAN STICK TO SURFACES
GETS THE JOB DONE QUICKLY • MANY TYPES OF APPLICATIONS
BIODEGRADABLE • FREE-RINSING • POWERFUL FORMULA
RUST INHIBITOR

Advantages: ENVIRONMENTALLY FRIENDLY • DOES NOT LEAVE A FILM
REQUIRES LITTLE SCRUBBING • SAFE ON METAL SURFACES

Where to Use: GREASY SURFACES • PAINTED SURFACES • ENGINES & MOTORS
KITCHEN WALLS • SWIMMING POOLS • BOATS • GOLF CARTS
METAL SURFACES • PLASTICS • CONCRETE FLOORS

Recommended For: MACHINE SHOPS • FACTORIES • COUNTRY CLUBS • MUNICIPALITIES
CONSTRUCTION CO.'S • BUS COMPANIES • SHIPS & BOATS
FOOD SERVICE AREAS • HOSPITALS • NURSING HOMES

Specifications:

COLOR	Blue	RINSABILITY	Excellent
FRAGRANCE.....	Sassafras	DENSITY.....	1.04
DILUTION RATIO.....	UP TO 1:50	pH RANGE	10.5 -11.5
BIODEGRADABLE	YES	SHELF LIFE.....	One Year
